

EMPOWERING THE FEMININE WITHIN

A 7-week healing workshop series connecting to the empowered self and awakening our Divine Feminine Archetypes within.

So often we don't have a space to talk and connect with other women—a space where we can empower ourselves and each other, to learn and share the power within.

This series is a platform for all women of all experiences to take their seats and speak their truths and begin to vision and manifest their dreams.

We will meet and engage with the energy of several goddesses from varied spiritual traditions. Through exploration, story, ritual, and community, we will tap into our power and ignite these strong feminine goddesses that stir within us.
